

Is Your Child Gifted?

If you think your child may be gifted, and you would like to extend their horizons with a range of exciting and low-cost activities, you may like to consider joining the Canterbury Association for Gifted Children and Youth (CAGCY).

Opportunities currently on offer to families through the CAGCY include an IT media design course, opera experience, experimental music sessions, and a theatre improvisation course. That's before we mention a great annual summercamp, regular adult education seminars, a pre-school play group, regular Discovery events, and social get-togethers for all ages including adults.

Visit our website at www.cagcy.org.nz to access our latest newsletter with all the details, or call Kate Coleman on 03-386-0074. We welcome new members and would love to hear from you.
