

CANTERBURY ASSOCIATION

GIFTED CHILDREN & YOUTH

Discoverers' Club Application - Option One

We welcome applications for membership of the Discoverers' Club. Discoverers' Club is for the enjoyment and extension of a child's gifts and talents with other like minds. For this reason, membership is not automatic and written confirmation that at least one child in the family is in the top five percent in intellectual ability, needs to accompany this application. A committee member is available to guide you. The committee will consider your application and inform you accordingly. Acceptance will be confirmed with you. Once accepted, a child's siblings automatically become members. If not accepted, your application will be returned to you.

Membership is open to any child who has been assessed as gifted by a Registered Educational Psychologist.

Referral

To be completed by psychologist.

Name of child:

Name of Psychologist:

Qualification:

Address:
